

FNQ Footprints Plumbing & Gas

PTY LTD

CAPABILITY STATEMENT

SEPTEMBER 2021

FNQ Footprints Plumbing & Gas Pty Ltd
ABN 93 651 236 501

100% Indigenous Owned and Operated Family Business.

Footprints Plumbing & Gas Pty Ltd provide a variety of building and construction industry clients across Northern Queensland with plumbing, drainage and gas fitting services.

We aim to exceed expectations through delivering high quality work to schedule and within budget

Our Core Values

Procure Local Products and Services

Create a safe work environment

Protect the natural environment

Employ and train our people

About Us

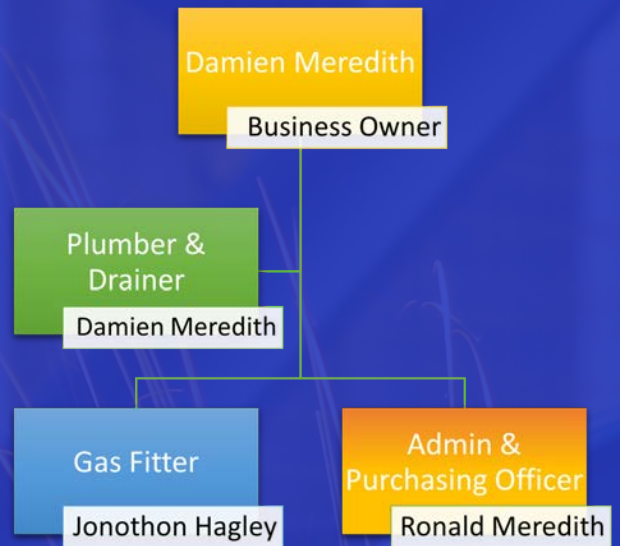

Experienced and certified plumber and drainer Damien Meredith launched FNQ Footprints Plumbing and Gas Pty Ltd in 2016, with a vision to train and employ Indigenous apprentices, leading to economic benefits for Indigenous communities. Our team has previously completed jobs in Cape York and the Torres Strait Islands, drawing on and developing local resources and talent. We also cover the Cairns and Atherton Tablelands regions.

FNQ Footprints Plumbing and Gas Pty Ltd is available for subcontracting, as well as residential work. We are fully qualified and offer a wide range of services, including: domestic wastewater and environmental treatment plants, new installations, renovations, repairs and maintenance, backflow testing and repairs, gas fitting, and roof installation or replacement.

Our company places a high emphasis on procurement of local products and services, creating a safe working environment, and protecting the natural environment.

Principles

Procure local products and services

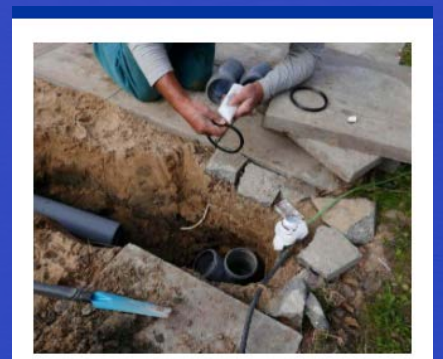

As a North Queensland owned and operated business FNQ Footprints Plumbing and Gas Pty Ltd supports other local businesses by using their products and services in the first instance. We also get involved with local Indigenous communities by providing formal training and employment opportunities, knowing the economic benefits this has for individuals and the broader society.

Create a safe work environment

Workplace health and safety considerations are embedded in FNQ Footprints Plumbing and Gas Pty Ltd processes and procedures, which minimises injuries and project downtime. Staff education and training is a priority, along with identifying and addressing risks on each work site.

Protect the natural environment

FNQ Footprints Plumbing and Gas Pty Ltd uses environmentally friendly supplies where possible, actively promotes recycling amongst fellow trades, and strives to minimise waste.
